Treatment Labs:	<ul style="list-style-type: none">✓ Pregnancy test within 72 hours prior to initiation of therapy for female patient under 55 years of age and no history of surgical hysterectomy✓ CMP✓ Lipid Panel
	<ul style="list-style-type: none">• New orders and progress notes required at least once yearly. A medication substitution may be required based on insurance payer policy due to preferred versus non-preferred medications or based on payer step therapy guidelines.• Please note for patients receiving treatment at the Montgomery Cancer Center: if an infusion reaction occurs, the Montgomery Cancer Center provider will order appropriate rescue medications as deemed medically necessary. This may also include pausing, reducing the rate of infusion or discontinuing the medication.• Please note for patient receiving treatment at Baptist East Outpatient Infusion: if an infusion reaction occurs, the Baptist East staff will follow the PRN hypersensitivity standing orders and will contact the referring provider in the event of an emergency. For life threatening anaphylaxis, Baptist East staff will follow rapid response policy or 911 facility policy.
